Steve Killen, Director of Development Services, gave the following report:

Mr. Nitschke was previously granted a variance for lot dept requirements to build townhome structures. His conceptual plan met lot width requirements, but, because of the existing configuration of the property, did not meet the depth requirements as the structures will front Shirley Street. On April 16, 2025, the Planning and Zoning Commission provided a Conditional Approval of a Preliminary Plat that, in essence, creates a three-lot subdivision from the existing lots of 12 and 13. The Condition placed on the approval the Preliminary Plat was that the Board of Adjustment extend the variances to the lots specified on the Preliminary Plat.

# Board of Adjustment STAFF REPORT

**SUBJECT:** Application No.: V 8893

Applicant Walter Latham is requesting a variance from Section 154.21.3.C – Variance for the Construction of a Carport, for property located at 1630 Overhill, Parcel R29067, being BLOCK H; LOT 14 of the S2500 Chamberlin Addition of the City of Stephenville, Erath County, Texas.

**MEETING:** Board of Adjustment – July 30, 2025

**DEPARTMENT:** Development Services

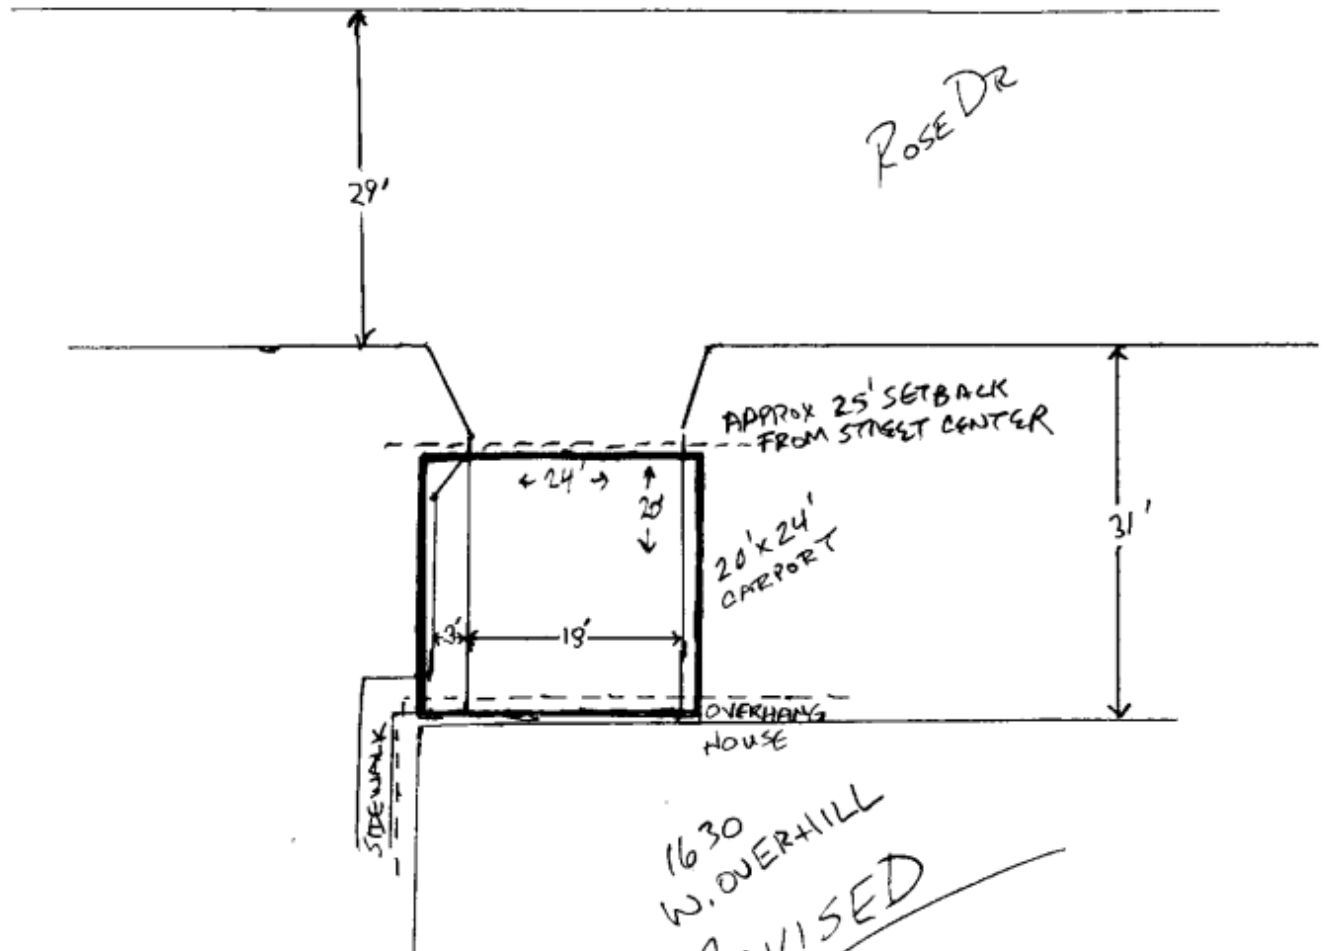

**STAFF CONTACT:** Steve Killen

## BACKGROUND:

Mr. Latham is requesting a variance for the construction of a carport over the property driveway. The driveway approach is on Rose Dr. If approved, the side setback will be reduced to 0' feet based on GIS imagery and the possibility that the carport could encroach the city Right-of-Way. Staff recommends if approved, the Board grant conditional approval, with the condition being that the carport not extend into the City ROW. An image of the GIS map is below. Exact dimensions cannot be determined with the documents provided. A new survey showing the property line and current setbacks would be necessary. By GIS mapping, the home is roughly 15' from the property line without the addition of the carport.

I saw the mention of the need of a survey in the board notes for V-8893. The attached surveys should suffice. I've added additional measurements to clarify the carport location.

We added a sidewalk for improved handicap access using cane or walker via grass lawn. We are a handicapped/disabled senior citizen couple wanting safer and more comfortable access, as well as vehicle protection.

The staff report references GIS mapping, which is stated as approximate. Expand the map and this is clear. I've attached a screenshot including a few of my direct neighbors. The lines are drawn through the houses. I guesstimate them at approximately 6 feet from my property line. I heard mention of a fence incident where it was built according to these imaginary lines and had to later be torn down.

I've attached a recent survey of 1630 Overhill, as well as 1650 Overhill. The latter provides a clear, precise location of the property line between the addresses. Measuring 90 feet from that property line ends 21 feet from the house. A 20 foot carport would be a minimum of 1 foot within the property line.

This is the exact standard approved recently for carports at 1840 Overhill and 2190 Woodland. I am requesting the same.

It will be the exact same style as 2190 Woodland. It will not be attached to the home. Rather, it will extend over the roofline and begin at a point even with the home beneath. As worded in 1840 Overhill's request, I am requesting 20 feet use of the 25 foot setback, ending within the property line.

# Board of Adjustment STAFF REPORT

**SUBJECT:** V2025-8826  
Applicant Danny Phillips, representing Richard D. Coan, is requesting a variance from Section 154.06.3.D.A.5, 154.06.3.D.A.6 and 154.06.3.D.A.7.b, relating to the minimum setback requirements for the Front, Rear and Corner Lot, respectively, for property known as 575 College, Parcel R30092, being Blk 112, Lot 6 of City Addition. The applicant is requesting a reduction to 15' for each section.

**MEETING:** Board of Adjustment – July 30, 2025  
**DEPARTMENT:** Development Services  
**STAFF CONTACT:** Steve Killen

## BACKGROUND:

Three variances are requested, reducing the setbacks from 25' to 15'. NOTE; Each request must be acted on separately.

### 6.3.D Height, Area, Yard and Lot Coverage Requirements.

(A) *Single family dwelling.*

- (1) Maximum density: one dwelling unit per lot.
- (2) Minimum lot area: 6,000 ft<sup>2</sup>.
- (3) Minimum lot width and lot frontage: 60 feet.
- (4) Minimum lot depth: 100 feet.
- (5) Minimum depth of front setback: 25 feet.
- (6) Minimum depth of rear setback: 25 feet.
- (7) Minimum width of side setback:
  - (a) Internal lot: five feet.
  - (b) Corner lot: 25 feet from intersecting side street.

## VARIANCE:

### Section 154.21.1.I

1. A variance from the literal enforcement of the Zoning Ordinance in order to achieve a reasonable development of the property. Whenever owing to exceptional and extraordinary conditions, the literal enforcement of the zoning regulations will result in unnecessary hardship in the development of the property, an appeal for a variance may be filed with the Board of Adjustment.

2. When a property owner can show that a strict application of the terms of this ordinance relating to the use, construction or alteration of buildings or structures or the use of land will impose upon him or her practical

difficulties or particular hardship, the Board may consider and allow variations of the strict application of the terms of this ordinance if the variation are in harmony with the general purpose and intent of this ordinance, and the Board is satisfied, under the evidence heard by it, that a granting of the variation will not merely serve as a convenience to the applicant, but will alleviate some demonstrable hardship or difficulty so great as to warrant a variation from the Zoning Regulations.

3. The Board may authorize a variance where by reason of exceptional narrowness, shallowness, or shape of specific piece of property of record at the time of the adoption of this ordinance, or by reason of exceptional situation or condition of a specific piece of property, the strict application of a provision of this ordinance would result in peculiar and exceptional practical difficulties and particular hardship upon the owner of the property and amount to a practical confiscation of the property as distinguished from a mere inconvenience to the owner, provided the variation can be granted without substantial detriment to the public good, and without substantially impairing the general purpose and intent of the comprehensive plan as established by the regulations and provisions contained in this ordinance.

(a) Papers required. An appeal for a variance shall include:

1. A site plan, drawn to scale, showing the location and dimension of the lot and of all existing and proposed improvements:
  - a. When an appeal is based upon hardship resulting from sharp changes in topography or unusual terrain features, the site plan shall include topographic information related to known base points of surveys, and profiles of the particular problem involved, including relationship to topographic features of adjoining properties.
  - b. When an appeal is submitted for variance of side yard or rear yard requirements, the applicant shall provide the same information for the properties adjoining the common lot line as may be applicable to the appealed requirements.
  - c. When an appeal is submitted for a variance from front yard setback, or for side yard setback on aside street, the applicant shall furnish a strip map showing the setback of main walls of all buildings on the same side of the street within a distance of 200 feet of the applicant's property.
2. A statement of facts and reasons why the Zoning Regulations should not be applied to the property in question and how the standards governing the Board's action would be satisfied; and
3. A statement by the Enforcing Officer citing the reasons for refusing to issue a permit under the plans submitted.

(b) Basis for action.

- (1) Before acting on an appeal for variance the Board shall consider:
  - a. The facts filed with the application;
  - b. The testimony presented at the public hearing on the appeal;
  - c. The City Staff's technical report on the appeal; and d. The Board's findings in its field inspection of the property.
- (2) The Board may grant an appeal, subject to such terms and conditions as it may fix, provided

Ms. Barnhart is requesting a variance for the construction of a 14x20 carport “inside the 25’ setback approximately 7’ from the road.” If approved, the carport would extend into the city Right-of-Way. Staff recommends if approved, the Board grant conditional approval, with the condition being that the carport not extend into the ROW. By GIS mapping, the home is roughly 15’ from the property line without the addition of the carport. The property line is approximately 10’ from the curb.

### **Section 154.21.3.C**

#### **Variance for the Construction of a Carport**

- (1) Granting a Variance without a Public Hearing:
